

BROCO MINI-TACTICAL TORCH, BASIC W/ALUMINUM OXYGEN CYLINDER PC/MTMD15-SGL

Apr-20

Broco's Mini-Tac Basic torch set (PC/MTMD15-SGL) is the simplest operational exothermic torch.

Intended for use with Broco Easylight cutting rods (9V battery ignition) or Broco Rapidfire cutting rod igniters with standard Broco cutting rods, the Mini-Tac Basic eliminates the need for carrying a large 12V battery and striker plate with cables.

The Broco Mini-Tac torch handpiece is our most compact and has a thumb-operated oxygen metering valve for easy one-hand control while rod lighting.

The 15 cu ft (@ 2000 psi) capacity oxygen cylinder can support either one Easylight rod or one standard 3/8" x 36" cutting rod.

The oxygen cylinder and regulator have the US CGA540 oxygen valve and inlet connection.

COMPONENT LIST

PART NO.	ITEM IDENTIFICATION	U/I	QTY
BOC-MD15	OXYGEN CYLINDER, ALUMINUM, 15CU FT @ 2000 PSI, CGA540	EA	1
CP-MD15-BK	CYLINDER POUCH, BLACK, W/SHOULDER STRAP (TO FIT BOC-MD15)	EA	1
MT-3105250	COMPACT OXYGEN REGULATOR, W/ GAUGE, CGA540	EA	1
PC/MT-T5P	COMPACT TORCH HANDPIECE	EA	1
PC/MT-H-5	HOSE ASSEMBLY,W/ QUICK CONNECTS, 5'L	EA	1
PC/VP-BK	VERTICAL POUCH, STORAGE, BLACK	EA	1
BP-KH-WEB-CLIP	WEB DOMINATOR ROUTING CLIP, MOLLE	EA	2
